Prepare before submitting information

The questions in the survey mainly concern costs related to your home. Bear in mind that our questions concern the costs of everyone in the household. If you live in a rented or a tenant-owned home, we ask about your monthly rent or fee, and what it includes. If you live in a house, our questions concern expenditure for insurance, water and sewage, refuse collection, chimney-sweeping, road maintenance, community facilities and heating. We also ask about mortgages, repair and extension of the home.

Statistics Sweden describes Sweden

Statistical agency Statistics Sweden provides society with statistics for decision-making, debate and research. We do so on behalf of the Government, authorities, researchers, and industry. Our statistics contribute to fact-based public discourse and informed decisions.

Dear reader,

You have received this letter because Statistics Sweden would like to invite you to take part in a social research survey on households' housing costs.

Statistics Sweden has been tasked by the Riksdag and the Government with describing how much households in Sweden pay for their housing. The results of this survey are part of that analysis.

The survey is carried out to improve knowledge about how different types of households live and what costs they have for housing. On the following page, more information is provided about the survey. You can also read about the survey here (in Swedish only): www.scb.se/but-info

Your answers are important

Taking part in the Housing Cost Survey is voluntary, but we hope that you want to participate, since your answers are very important. You are one of 8,400 people over the age of 18 who have been randomly chosen, and your participation cannot be replaced by someone else's.

Here's what to do

Go to www.insamling.scb.se/eid to answer the questions. Your login details can be found in the Swedish contact letter.

You can log on as many times as you like and save the information each time.

Please answer the questions as soon as possible. If you do not submit your answers, a Statistics Sweden representative will call you to ask you about your households' housing costs.

As a thank you for your participation, we will send you a gift card worth SEK 99.

Sincerely,

Joakim Stymne
Director General, Statistics Sweden
