

Special Note

Special issue of *Statistica Neerlandica* on Disclosure Avoidance

Statistica Neerlandica, the international scientific journal of the Netherlands Society for Statistics and Operations Research (VVS) has devoted a special issue to Statistical Disclosure Avoidance. It contains the proceedings of an international symposium held December 1990 at the Netherlands Central Bureau of Statistics.

Contents: W.J. Keller and P. Kooiman, Guest editors' preface;
T. Dalenius, Opening speech;
W.J. Keller and J.A. Bethlehem, Disclosure protection of microdata: problems and solutions;
C.J. Skinner, On identification disclosure and prediction disclosure for microdata;
B.V. Greenberg and L.V. Zayatz,

Strategies for measuring risk in public use data files;
R.J. Mokken, P. Kooiman, J. Pannekoek, and L. Willenborg, Disclosure risks for microdata;
U. Blien, H. Wirth, and M. Müller, Disclosure risk for microdata stemming from official statistics.

A copy of this issue (Vol. 46, No. 1, 1992) can be obtained at the price of US\$20.-, mailing costs included. Orders, accompanied by a check to this amount made payable to VVS, should be sent to
