

# What is your view of the sense of community?

We invite you to participate in a survey about social cohesion! The purpose of the survey is to gain better knowledge about how people living in Sweden think of each other, their own lives and society. Your answers provide important information to decision-makers and can contribute to better integration. Your answers are equally important regardless of whether you were born in Sweden or in another country. The survey is short and takes 5–10 minutes to complete.

**As a thank you for your participation, we will send you a gift card with a value of 100 SEK.**

## Your answers are important

Participation in the survey is voluntary, but we hope that you choose to partake as your answers are very important. You are one of 12,000 people who have been randomly selected from Statistics Sweden's population register. Your answers cannot be replaced by anyone else's. Please answer the questions as soon as possible.

## Here's what to do

Go to [www.insamling.scb.se/eleg](http://www.insamling.scb.se/eleg) and log in with your BankID or some other e-identification to answer the questions. You can log on as many times as you like and save the information each time.

There is also the possibility to answer the questions in a telephone interview. If we have not received your answers within a few weeks, an interviewer from Statistics Sweden will contact you.

---

## If you have any questions, please feel free to contact us!

## More about the survey

### Who uses the answers and how?

To avoid asking more questions than necessary, we will supplement your answers with data already available at Statistics Sweden. This includes data about gender, age, your education and employment, where you live and were born, immigration, your household, and income and compensation.

Once Statistics Sweden has collected the answers, we compile them to statistics in the form of tables and figures. Statistics Sweden's statistics are used primarily by the government, authorities and other organizations. Statistics Sweden may use the data to produce other statistics. The data may also be disclosed to researchers or others who produce statistics. Such research and statistical activities are also subject to statistical confidentiality (see below).

To enable follow-ups with register data and/or a new survey, Statistics Sweden creates serial numbers that are linked to the personal identity numbers of those who participate in the survey. This link will be saved separately from survey responses and register data and will be deleted when the follow-up and/or the new survey is completed.

### How are your answers protected?

When the information is presented, no single individual can be identified.

Information about an individual's personal and economic conditions is held confidential at Statistics Sweden and all those who work on the survey are bound by professional secrecy. Confidentiality applies under Chapter 24, Section 8 of the Public Access to Information and Secrecy Act (2009:400).

### How is personal data processed?

Statistics Sweden is the controller of personal data that is processed by Statistics Sweden. Your personal data will be processed in accordance with the EU General Data Protection Regulation, the Official Statistics Act (2001:99), the Official Statistics Ordinance (2001:100) as well as other prevailing legislation.

Statistics Sweden's legal basis for processing your personal data is that the processing is necessary for performing a task of public interest (producing statistics). Additional information on how Statistics Sweden processes your personal data is available at [www.scb.se/personuppgifter](http://www.scb.se/personuppgifter).

You have the right to obtain a copy, in the form of a register extract, of the personal data processed about you by Statistics Sweden. Go to [www.scb.se/registerutdrag](http://www.scb.se/registerutdrag). You also have the right to have your personal data deleted in certain circumstances.

If you are dissatisfied with how your personal data is processed, you have the right to lodge a complaint with the Swedish Authority for Privacy Protection.

### **Telephone interview**

The interviews are recorded, and in some cases a colleague listens in on the interview, but only subject to your approval. We use listening in as a method to help improve our questionnaires and interview methods.

All interview recordings are deleted within four weeks. Recordings are protected under the Public Access to Information and Secrecy Act and the EU General Data Protection Regulation (see also Section "How are your answers protected?")

### **Do you have any questions on personal data?**

Contact Statistics Sweden's Data Protection Officer:  
010-479 40 00, [dataskyddsombud@scb.se](mailto:dataskyddsombud@scb.se),  
Statistics Sweden, 701 89 Örebro

### **Who is behind the survey?**

The government has commissioned Statistics Sweden to follow-up the integration policy targets on democratic, social and cultural integration. The results from this survey are part of that follow-up. An analysis report with the results from the survey will be published in 2026 at [www.scb.se](http://www.scb.se).

### **How do I get my reward?**

As a thank you for your participation, you will receive a gift card with a value of 100 kronor, via Gifted. The reward will be sent either to your digital mailbox or to your home within a few weeks. The gift card can be redeemed at a wide range of well-known stores, restaurants and services. You decide what you want to use it for!
