You can answer in English on
the web – log in to
www.insamling.scb.se/eid

Visit www.scb.se/med-en for
information about the survey.

Hi! It's time for the citizen survey in your municipality, and you have been selected to participate. Through this survey, you have the opportunity to share your opinions about your municipality—what it's like to live there and what you think about the municipal services. The survey is conducted by Statistics Sweden.

Your answers are important

You are one of the residents randomly selected from the Total Population Register. Your answers cannot be replaced by someone else's. Participation is voluntary, but we hope you choose to take part, as your responses are very important. The more people who respond, the better the quality of the survey.

How to participate

Go to www.insamling.scb.se/eleg or scan the QR code to answer the questions. Log in using your e-ID or with the following login information:

	User ID	<input type="text"/>
	Password	<input type="text"/>

Thank you very much in advance for your participation!

Sincerely

Karin Hallmén
Statistics Sweden

What is the survey about?

You will be asked questions such as:

- What do you think about schools, elderly care and roads?
- To what extent do you trust the politicians in your municipality?
- How safe do you feel outdoors in your neighborhood?

Do I have to respond to all questions?

No, you may skip questions. You decide which questions you wish to respond to.

Who uses the responses and how?

When Statistics Sweden has collected the responses, we compile them into statistics in the form of tables and charts. The statistics are primarily used by the management and administrations of Sweden's municipalities.

Statistics Sweden may also use the responses to produce other statistics. Besides being used by Statistics Sweden, the survey information may be used by researchers and other producers of statistics. The provision of data to external parties is restrictive and subject to a specific assessment. Research and statistics operations are covered by statistical confidentiality.

To avoid asking more questions than necessary, we will supplement your responses with information already available at SCB. This includes information about gender, age, marital status, country of birth, education, employment, and income from Statistics Sweden's registers. Sometimes, we also retrieve data about the part of the municipality to which respondents belong.

SCB estimates that the data will be stored for 40 years before being transferred to long-term preservation, although a final decision on the retention period has not yet been made.

How are my responses protected?

When the results of the survey are presented, your individual responses will not be shown. Data regarding individuals' personal and financial circumstances are protected by confidentiality and everybody working with the survey must observe professional secrecy. Confidentiality applies according to Chapter 24, Section 8 of the Public Access to Information and Secrecy Act (2009:400).

How is personal data handled?

Statistics Sweden is the personal data controller for the handling of personal data that is processed by Statistics Sweden.

Regulations on the handling of personal data are found in the EU General Data Protection Regulation (GDPR), the Official Statistics Act (2001:99) and the Official Statistics Ordinance (2001:100). In addition, there are also rules in the Data Protection Act (2018:218) and the regulations issued in connection with that Act.

Should you find that Statistics Sweden has handled your personal data in a way that is in breach of the EU General Data Protection Regulation, certain conditions grant you the right to have the data deleted. Further information about how Statistics Sweden handles your personal data is available at www.scb.se/personuppgifter.

You have the right to receive a copy, free of charge, in the form of a register extract, of the personal data that is handled by Statistics Sweden in its capacity of personal data controller. More information is available at www.scb.se/registerutdrag.

For questions regarding personal data

Please contact Statistics Sweden's Data Protection Officer:
010-479 40 00, dataskyddsbud@scb.se, 701 89 Örebro

Where will the result be published?

The statistics will be available to the municipalities that ordered the survey in December 2026 and will also be published in SCB's statistical database at www.statistikdatabasen.scb.se under the category *Democracy*.
