Priority tasks in PxWeb 2

Further plans

Plans for PxWeb 2 in Statistic Norway

Nordic plans

Remaining tasks

PxWeb 2

- Show PxWebAPI 2.0 in PxWeb
- Improvement from usertest
- Search at the beginning of words
- Links to Metadata
- Hide empty rows from table
- Chose code/text

Graph in PxWeb 2.0

Plan to complete PxWeb 2

- Project closing day October 3 – agree on new meeting points
- Åsa takes on more responsibility, collaborates with Kristin
- SCB and SSB continue with the same developer resources and UX designer until the agreed tasks are completed
- Both countries also have some tasks specifically for their own organization

Plans for PxWeb 2 in Statistics Norway

Step 1

- Link from PxWeb to PxWeb 2

The screenshot shows the homepage of Statistisk sentralbyrå (Statistics Norway). At the top, there are links for "Svare på undersøkelse?", "Forskning", "Vi bruker cookies", and "English". Below the header, there is a search bar and a navigation menu with categories: "Arbeid, lønn og utdanning", "Befolkning og bolig", "Helse og samfunn", "Miljø og transport", "Næringsliv og teknologi", and "Økonomi". The "Befolkning og bolig" category is selected.

The main content area displays a banner for "PxWeb 2.0 beta" with the text: "Vi jobber med å gjøre brukergrensesnittet bedre for deg. Vil du prøve? Prøv vår nye PxWeb 2.0 beta". Below this, there is a section for "Statistikkbanken" with links: "Korleis bruke statistikkbanken", "Sjå hovudetal for denne statistikken", and "Statistikkbankens forside".

The "Befolkning" (Population) section is highlighted. It contains three main options: "Velg tabell" (Select table), "Velg variabler" (Select variables), and "Vis resultat" (View result). The "Velg tabell" option is selected, leading to the table selection interface.

The table selection interface shows the title "07459: Alders- og kjønnsfordeling i kommuner, fylker og hele landets befolkning (K) 1986 - 2023". Below the title, there is a link for "Informasjon om tabellen" and a "Listevising" button. The interface is divided into three panels for selection:

- Statistikkvariabel** (Må velges *): Shows "Valgt 1 av totalt 1" with the variable "Personer" selected.
- År** (Må velges *): Shows "Valgt 1 av totalt 38" with the year "2023" selected.
- Region** (Må velges *): Shows "Valgt 0 av totalt 359" with the region "Kommuner 2020, sammenslåtte tids" selected.

Step 2 - PxWeb 2 in front – link to PxWeb

- Show PxWebAPI 2 in PxWeb 2
- Freeze in header and front column
- Algorithm on changes

Welcome to the new PxWeb 2.0! We're still improving to help you find and use the numbers you need

PxWeb Språk/Language

Home > Transport and tourism > Land transport > Registered vehicles > 14020: First time registered vehicles, by type of registration and type of fuel 1995M01-2025M09

14020: First time registered vehicles, by type of fuel, contents, month and type of registration

Information Last updated: 10/2/2025, 8:00 AM

	Private cars	
	2025M09	
	New vehicles	Second-hand imported vehicles
Electric/zero-emission	13,818	420
Fossil	109	220
Hybrid	135	16
Other fuel	0	0

Step 3 – PxWeb 2

- Search at the beginning of words
- Definitions of Information
- Hide empty rows from table
- Show code/text or both

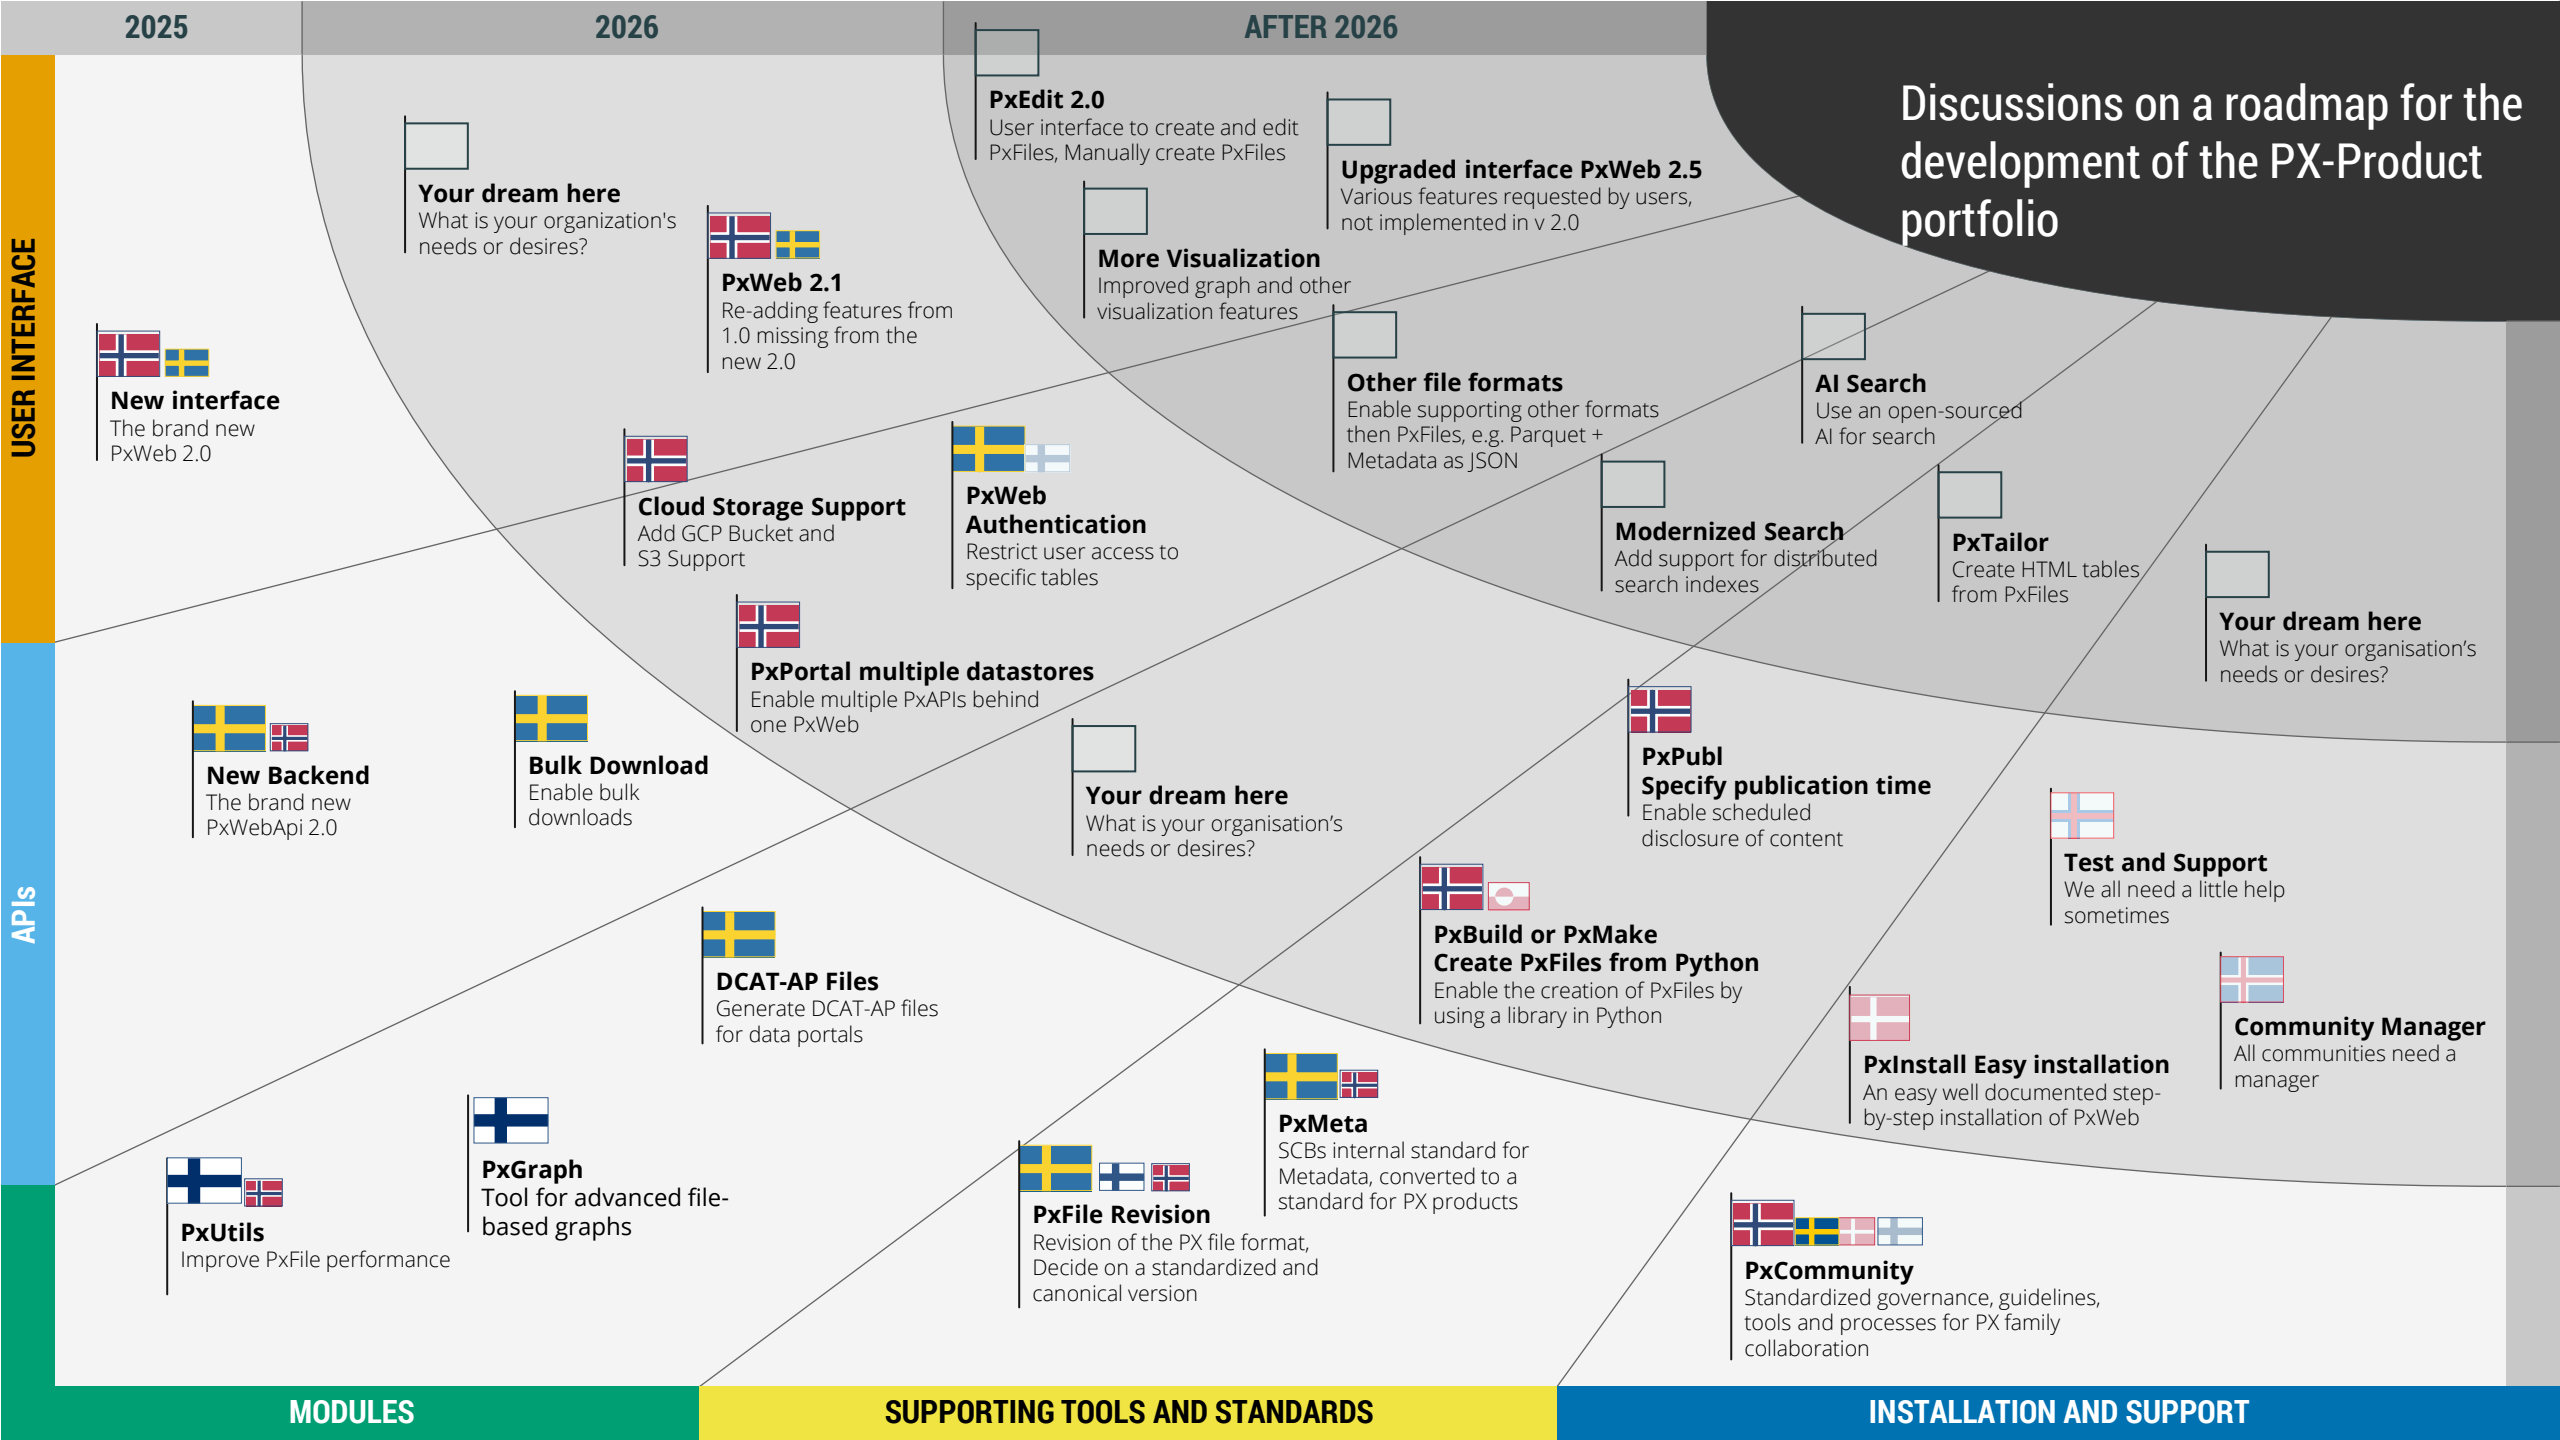

The screenshot displays the PxWeb 2.0 interface. On the left is a sidebar with icons for Filter, Display, Edit, Save, and Help. The main area features a 'Filter' panel with four sections: 'Type of registration' (2 of 2 selected), 'Type of fuel' (4 of 4 selected), 'Contents' (1 of 4 selected, with a 'Mandatory' tag), and 'Month' (1 of 369 selected, with a 'Mandatory' tag). The right side shows a breadcrumb trail: Home > Transport and tourism > Land transport > Registered vehicles > 14020: First time registered vehicles, by type of registration and type of fuel 1995M01-2025M09. Below this is a title '14020: First time registered vehicles, by type of fuel, contents, month and type of registration' and an 'Information' button indicating the data was last updated on 10/2/2025 at 8:00 AM. A table follows, showing data for 'Private cars' in '2025M09', categorized by 'New vehicles' and 'Second-hand imported vehicles'. The table rows are 'Electric/zero-emission', 'Fossil', 'Hybrid', and 'Other fuel'.

	Private cars	
	2025M09	
	New vehicles	Second-hand imported vehicles
Electric/zero-emission	13,818	420
Fossil	109	220
Hybrid	135	16
Other fuel	0	0

PxWeb 2.0 Language

Nordic cooperation

Nordic Px-meeting

- Establish a Nordic head of unit (COM and IT) quarterly meeting
- Establish a Nordic architect/product owner meeting
- Meeting about files vs. open source database
- Have an annual directors' PX-meeting

Launch at Statistics Sweden

- Parallell versions
- DCAT-AP format for open data in dataportal
- PxWeb 2 (x-mas)
- PxWeb 2025 v1

PxWeb 2.x

- Bug fixes
- WCAG
- Graphs
- Hierarchies
- Sum
- Algoritm for mobile
- more ...

New versions

- [Github](#)

Maintenance of PxWeb

- PxTools - Projects
- Ux designer
- Statistics Sweden and Statistics Norway developers
- Tight cooperation SSB/SCB
- Expanded cooperation

PxWeb 2.0 New user interface

Statistics Sweden and Statistics Norway have a project together to build a new and more user-friendly interface for PxWeb.

[About the project](#)
